Welcome to our sixth annual in-fawn hind sale. The sale will be run on BIDR on Thursday 1st August at 7pm on www.bidr.co.nz.

Hinds offered are in tag order, not ranked. They have all been vet scanned in fawn. The auction will have an opening bid of \$700 with NO RESERVES. There are 8x 18-month hinds included in this catalogue.

These hinds have very good pedigrees behind them, and we are even selling a few from our embryo transfer program. We have limited fawning space we simply cannot keep them all. We have no commercial hinds here at Altrive, and even our 90 recipient hinds have strong pedigrees behind them. Many of the hinds we sell are simply because they do not have sons for us to assess. We are very proud that many excellent progeny are born from these hinds and we enjoy hearing your feedback!

You can find all the sire information on the sire pages in this catalogue, or check our website at www.altrivereddeer.co.nz for any sires that are not featured in this catalogue. If you click on the underlined blue sires in the biographies that link will take you directly to their sire page. We put lots of time and effort into keeping our sire pages on our website up to date so you can see how they are performing for us at Altrive.

As always we wish you all well, and thank you for your ongoing support.

Andy and Sam and Geoff Elder

All hinds have been scanned in fawn by NSVets.

They are fully vaccinated for Leptospirosis and have received 12g copper at scanning in May/June.

241-2 5.5kg @ 2yrs

Altrive 241-21 was used as a 2yr sire for our 2024 mating. Dam 57-17 out of the embryo transfer program and had two brothers sold at auction. We used her as a donor hind and although a good flush this was her only son, and unfortunately, she died after that breeding season.

Grand dam 207-12 has five sons sold as sires. Corona sons have been successful in the national 2yr competition in 2024 so we think this combination should breed well.

BIOGRAPHY ****TOP HIND****

64-13 has been in our stud system for a long time, and is an indication that she is a good hind, but we just have plenty of different blood coming through to make room for this year. She has produced a sire stag 12-18, 7.50kg @ 3yr sold in our 2022 sale. In fawn to 2yr sire 262, 7.5kg @ 2yrs this is a good hind mated to a stag with heaps of potential... a good combination. ET sister 92-13 dam of 240-15 9.65kg sold \$70,000. She also has a full sister with 3 sons sold 8, 8.3 and 7.55kg@ 3yr.

7-09 used as donor in 2013 and along with her daughter 64-13 produced 91-13, 8.4kg sold \$13,000 and 84-13 sold \$6,000.

139-06 was a good hind, with two sons sold at auction and another of her daughters 8-11 the dam of sire 89-13. The dam of 139-06 also had two sons sold at auction.
