ABOUT US

Tawhai Suffolk Stud was founded in 1988 by Penni Loffhagen and grew in its hay day, to around 800 registered breeding ewes.

The Suffolks have been run in a commercial breeding environment, along side our Beef fattening herd.

The flock has been run in large mobs and with use of assessment tools (Birth and wean weight, Alliance Viascan and EMA recording) to insure our SIL figures keep us industry focused.

Quality and biosecurity are ensured through genetic and veterinary testing. Testing includes Brucellosis accreditation, Sire spider lamb gene testing, FRT and Scrapie gene testing.

In 2024 I used a sire from Essie Suffolk Stud in Scotland...Winston. The progeny have increased our bone and weight gain. (You will note some ewes have not lambed in 2024 ...not all AI was effective.) (There will be some rams available at the sale from this AI, the 5 ewe's hoggets from this are being retained in flock at present).

Due to sale of the farm at Mt Greba we are dispersing nearly all the ewes, I will be a lifestyler, with 20 hectares.

Marty (Dad) is retiring after a life dedicated to Stud sheep breeding, I wish he and Chris the best for a quieter life, not chasing weather, water and sheep.

Contact Penni 021 1494413.

CONDITIONS OF SALE
